PROFESSIONAL SUMMARY

Backend Software Engineer with **5+ years** of experience designing secure, scalable cloud applications using Python, TypeScript, Node.js, AWS, Docker, and PostgreSQL. Experienced in implementing AWS IAM, VPC, EC2 hardening, KMS, S3 policies, CloudWatch, Security Groups, NACLs, Route53, Load Balancer, and Parameter Store. Ranked in the **Top 4% on TryHackMe** with hands-on experience in penetration testing, Active Directory security, vulnerability assessments, and secure software development.

TECHNICAL SKILLS

Programming & Backend: Python, TypeScript, JavaScript, Node.js, NestJS, Express.js, Next.js, React, REST APIs, GraphQL, Microservices, gRPC

Cloud & DevSecOps: AWS EC2, IAM, S3, VPC, KMS, Parameter Store, Secrets Manager, Security Groups, NACLs, Route53, Application Load Balancer, CloudWatch, Docker, Kubernetes, CI/CD, GitHub Actions, Linux

Application Security: Secure SDLC, OWASP Top 10, Threat Modeling, JWT, RBAC, API Security, Secure Code Review, Dependency Scanning, Secrets Management, Least Privilege

Offensive Security: Kali Linux, Burp Suite, OWASP ZAP, Nmap, Metasploit, Gobuster, Hydra, BloodHound, CrackMapExec, Hashcat, John the Ripper, Wireshark

Vulnerability Management: Nessus, OpenVAS, CVSS, Risk Assessment, Incident Response, Splunk

Databases: PostgreSQL, MongoDB, Redis, RabbitMQ, SQL

Frameworks: MITRE ATT&CK, NIST CSF, CIS Controls, Zero Trust, Defense in Depth, STRIDE

PROFESSIONAL EXPERIENCE

Full-Stack Engineer | AstroNatal Bot (Dec 2025–Present)

- Designed AI SaaS platform using TypeScript, Python, AWS and Docker.
- Designed architecture supporting 1,263 MAU with 99%+ availability
- Automated workflows saving 10+ hours/week.

Lead Backend Developer | ProBuy Inc. (Sep 2024–Nov 2025)

- Designed 100+ REST APIs using NestJS and TypeScript
- Implemented secure authentication following OWASP.
- Configured AWS IAM, Security Groups, VPC, EC2 hardening, KMS, S3 policies, Route53, ALB, CloudWatch and Parameter Store.
- Reduced API latency by 30% using Redis
- Performed dependency scanning with Snyk.
- Led team of 3 developers.
- Maintained 99.9% production availability.

Technical Specialist | CTDI

- Tested 180+ networking devices per shift.
- Maintained 100%+ production targets.

IT Analyst & Full-Stack Developer | Deca4 Advisory

- Assisted recovery after a cybersecurity incident, restoring 100,000+ records.
- Research tech solutions for: Sphera World,
Tejouri,
Dubai International Financial Centre (DIFC).

Junior Software Developer | Ug Auto Trans

- Built CRM from zero draft with: document generation (4 documents),
auto email sends,
Scripts for arrange files, create folders, unzip photos, move files
- Automated workflows reducing manual effort by 85% (total speed up process of preparation from 2h to 18 minutes).

HANDS-ON CYBERSECURITY EXPERIENCE

TryHackMe:

- Top 4% global ranking
- 140+ completed rooms
- 215+ day learning streak
- 23 badges
- Completed Pre Security, Cyber Security 101, Web Fundamentals and Jr Penetration Tester paths.
- Hands-on practice with Active Directory, privilege escalation, web exploitation, enumeration, password attacks and incident investigation.

SECURITY PROJECTS

Active Directory Security Lab

- Built Windows AD lab with Domain Controller, DNS, GPOs and domain users.
- Used BloodHound and CrackMapExec for enumeration.
- Practiced Kerberoasting, Pass-the-Hash and lateral movement.

Web Application Security

- Tested SQLi, XSS, IDOR, CSRF, Command Injection and Broken Authentication.
- 80+ attack scenarios using Burp Suite and OWASP ZAP.

Vulnerability Assessment

- Assessed 100+ simulated hosts using Nmap, Nessus and OpenVAS.
- Prioritized remediation using CVSS.

Cloud Security

- Implemented IAM, least privilege, Security Groups, NACLs, EC2 hardening, encrypted S3 buckets, CloudWatch and Parameter Store.

CERTIFICATIONS

TryHackMe:	Jr Penetration Tester	(THM-FEBJO1TGTD)
	Web Fundamentals	(THM-9BZDMIE0UT)
	Cyber Security 101	(THM-REKMTVLFXK)
Microsoft	Azure AI Fundamentals	(6581388F4BB8D8BC)
IBM	Data Analyst Professional Certificate	
Google	Project Management	(VEVKDHMIK92D)

EDUCATION

Master degree of “Automation and Computer Technologies”
